

Dear Invitee:

Please join ADARA Networks in the FUJITSU Booth at the Big Communications Event 2016 to view our groundbreaking solutions!

The banner features a night cityscape with a network overlay of blue nodes and lines. The ADARA logo is prominently displayed in the upper center. Below it is the 'BIG COMMUNICATIONS EVENT' logo. The Fujitsu logo is in the bottom left corner. The main text in the bottom right corner provides event details.

ADARA

BIG COMMUNICATIONS EVENT

FUJITSU
shaping tomorrow with you

Please Join ADARA at the Big Communications Event 2016
Showcased Partner in the FUJITSU Booth #505
Austin TX Convention Center
May 23-25, 2016

ADARA will be the Showcased Partner in the FUJITSU BCE Booth #505.

**Live Product Demonstrations in the FUJITSU BCE Booth #505 with ADARA and FUJITSU technical personnel to answer questions.
Please email Sales@ADARAnetworks.com to schedule a private product demonstration.**

ADARA and FUJITSU will be demonstrating fully automated Cloud Data Center Interconnect Services featuring the Fujitsu 1 Finity S100 and Flashwave 9500 delivering VLAN Based Carrier Services, the ADARA Axis delivering VxLAN and VLAN Services, SDN Controller Interoperability between ADARA Sky and Fujitsu Virtuora, and the ADARA Dynamic Path Computation / Dynamic Path Computation Engine.

This demonstration is of one of the most desired services requested by carriers'; and it demonstrates complete SDN Packet Optical Integration.

In this demonstration you will see how ADARA DLSP enabled Real Time Monitoring Management of Events can deliver any service.

Solution components include:

- Cloud Management platform with Integrated SDN Programming Choreography and Orchestration
- OpenStack and OpenFlow Integration
- Automated Discover, Configuration and Operation of Packet Optical Networks
- Automated Discover and Provisioning of Underlay and Overlay Networks
- Cloud Data Center Interconnect Quality Service
- Autonomically Intelligent Performance Based Data Center Interconnect
- Bandwidth Calendaring
- Federation: Single Sign-on Multi Region
- Integrated Single Sign-on Authentication for Multiple Regions
- Multi-Layer Packet Optical Topology Visualization
- Multi Region Cloud Data Center Analytics
- And more

BIG COMMUNICATIONS EVENT

The Big Communications Event brings together the industry's top competitive operators with its most dynamic technologists to discuss and debate the issues both driving and challenging the ultimate move to an NFV-enabled cloud running profitable applications and services over an underlying New IP network.

Many of these hottest topics relate to the technologies themselves and the ways in which winning players will best master the disciplines of technology development, innovation, creativity and business acumen. But there are other factors at play here, namely trust and culture, and a reshaping of industry-wide collaboration, and they will be part of the BCE conversation.

BCE is the one event where every member of the next-gen communications ecosystem can find the information they need to come out on the winning side of this singular period in the history of the comms industry.

Here are the details and registration link:
